JADERNÁ ELEKTŘINA

in the spring of 2003, the Dujčin power plant with an installed electrical capacity of 2000 MW became the largest energy source in the Czech Republic

Jemlín is a municipality and village in Český Budějovice district in the South Bohemian region of the Czech Republic.

Jemlín is one of the most famous nuclear power plants

FLAG

ZÁMEK ČERVENÁ LHOTA

1)

Červená Lhota is a water-based castle built in 1350. The castle includes a park, pond and farm building. Since 2001, the castle has been registered as a national monument.

2)

A castle built in a square shape in which the Kábovás of Rybnány lived since 1530. At the end of 1600, the Růtovás of Ďírná took over the castle. After the death of the Růtovců, Vilém Slavata bought the castle.

3)

The castle tour takes about 50 minutes, during the tour you will see 16 rooms that are preserved from the 19th century. Castle Červená Lhota is the third visited castle in the South Bohemian Region.

opening time
Monday 9:30/17:00
Tuesday 9:30/17:00
Wednesday 9:30/17:00
Thursday 9:30/17:00
Friday 9:30/17:00
Saturday 9:30/17:00
Sunday - 9:30/17:00

4)

The castle was rebuilt four times for the first time in 1542 and lasted until 1555, the next reconstruction was in 1658/1678, the third reconstruction was in 1841/1863, and the noon reconstruction lasted 8 years from 1902/1910.

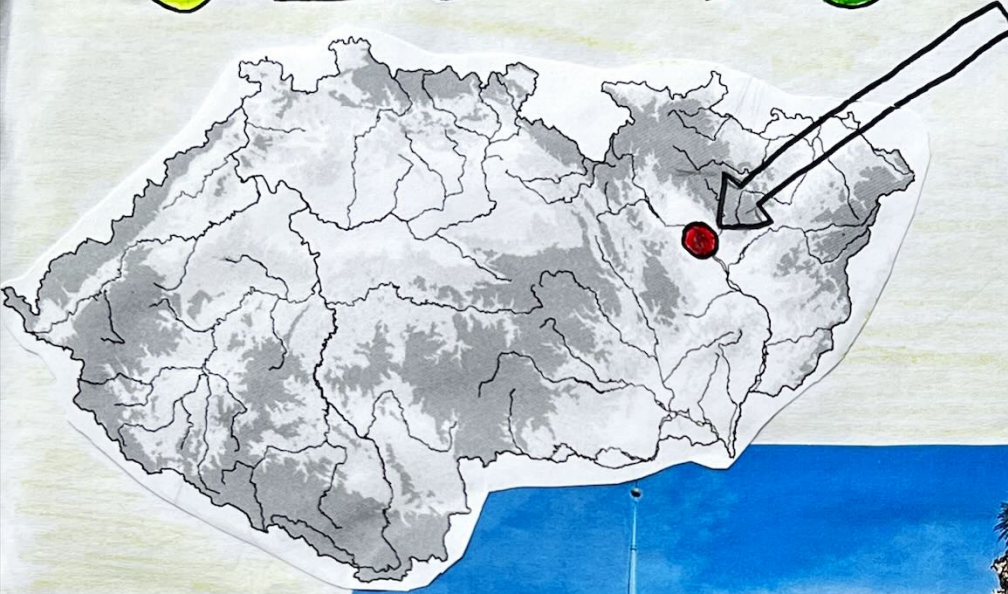

5)

The castle was named only in the 17th century, according to the color of the castle. There were many films made at the castle, e. g. Zlatovláska O zatoulané princezně, o kráse a štěstí, or Also Princezna na hrášku. At the castle there is the possibility to rent a boat and sail around the castle.

1350

OLOMOUC

Olomouc is 6th largest city in the Czech Republic

It is in the center of the historical region Moravia

Sloup Nynější Trojice (Holy Trinity Column)

Olomouc City Hall with astronomical clock

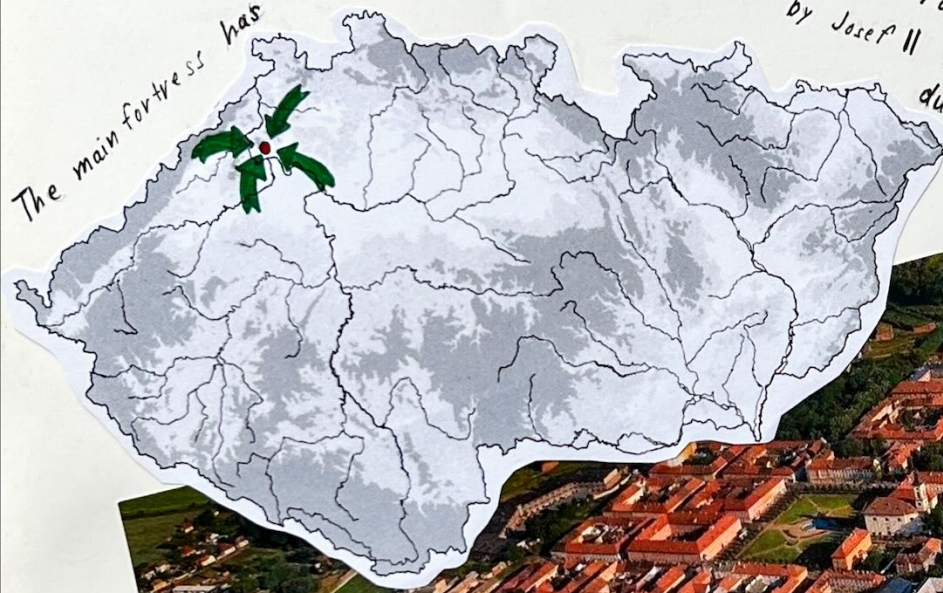

Olomoucké syrečky - (Olomouc cheese)

Terezín

It is a small town with two fortresses - small and main

The main fortress has octagon shape

It was founded in 1780 by Josef II to protect during wars

The underground corridors have 29km

The small fortress was used as a prison where Jewish were starving in horrible conditions and lot of them were later executed

During Second World War Nazi used the fortress as the Jewish ghetto from where the Jewish were deported to concentration camps

At present in Terezín there is museum of holocaust and Jewish memorial and cemetery

PÍSEK STONE BRIDGE

- The oldest gothic sand bridge in Czech Republic
- Built in 3rd quarter of the 13th century
- It is on the list of the Czech culture monuments

- Named after the first being that crossed it (legend)
- Its half century older than Charles Bridge

GREAT SCENIC VIEW

- Length of the bridge is 109,75 m and width 6,25 m
- Its built on six pillars
- It has seven arches
- It gives the impression of a "small" Charles bridge

VĚSTONICKA

VENUŠE

PERNŠTEJN

• In 1995 it was declared a national cultural monument.

• Address: Nedořice

• Admission: 300 Kč (It depends on what you want to talk about)

• The name Pernštejn is most often associated with the German term *Bärenstein*, translated as "bear stone"

• The biggest military catastrophe of Pernštejn was the siege of the castle by the Swedes in 1645.
